VISTA LATERAL

Technical drawing of a reinforced concrete beam cross-section. The beam has a total length of 448 cm, with a central section of 288 cm. The cross-section is rectangular with a width of 30 cm and a height of 50 cm. The beam is reinforced with 7 top bars (7ø5.0c/2cm) and 7 bottom bars (7ø5.0c/2cm). The beam is supported by two columns, each 30 cm wide and 50 cm high. The beam is labeled 'FUE' at both ends.

Technical drawing of a reinforced concrete slab (COSTELA) showing dimensions and reinforcement details. The slab has a total width of 443 mm and a thickness of 120 mm. It features two main reinforcement bars: N2 - 2ø10.0 (top) and N6 - 12ø8.0 var. (bottom). The distance between the centerlines of these bars is 443 mm. The slab is supported by two walls, each 75 mm wide. The reinforcement bars are bent up at 45 degrees. The drawing also shows a section line A-A and a section line B-B.
